Descrizione

Pair of crawler tracks Z24P28AG version, with rubber belts, hubs, "claw" cones (32 cones per pair), roll-over protection bars, for power mowers from 10 to 12 HP, with 5.0-10 wheels with differential gearing and brakes, and hydrostatic machines.

The belts are equipped with cones with anti-wear heat treatment.

The "claw" cones allows this version to work in hard to access areas **avoiding the transverse slipping of the machine on the slope.**
